STRENGTHS

- Strong experience in data analysis, automation and process optimisation.
- Building practical AI-assisted tools for business use.
- Excellent stakeholder communication and cross-functional collaboration.
- Ability to turn complex information into structured workflows.

AREAS TO IMPROVE

- Deepen knowledge of cloud data platforms (BigQuery, Snowflake).
- Expand strategic product metrics understanding.
- Prepare advanced SQL examples.
- Learn more about AI governance in enterprise.

★ WHY I FIT

I combine operational experience, structured thinking and hands-on AI tool-building.

I easily translate business needs into practical solutions and enjoy improving processes through automation and data.

? QUESTIONS FOR RECRUITER

- How do you measure success in this role in the first 6 months?
- What are the biggest operational challenges the team is solving now?
- What tools and AI solutions are currently used by the team?

INTERVIEW PHRASES

- "I approach challenges by breaking them into clear steps."
- "I focus on solving the root cause, not just the symptom."
- "I enjoy building systems that help teams work more efficiently."
